# Pet's Relief®

## Innovative solution for neutralisation of house dust allergens.

Reduces the exposure to house dust allergens, which helps to reduce the allergic symptoms.

### ALLERGONE

#### DUAL MECHANISM OF ACTION

1

NEUTRALISES MAIN ALLERGENS OF HOUSE DUST

**ALLERGONE** spray contains an aqueous suspension of microcapsules. The core of microcapsules is filled with a mixture of substances affecting the chemical structure of allergens particles.

2

REDUCES THE RISK OF ALLERGEN EXPOSURE

**ALLERGONE** forms a polymer film that glues dust allergens in larger particles stopping them from floating in the air and allowing aggregated allergens to be removed easily with conventional cleaning.

#### APPLICATION SITES

Rug and carpets

Bedding

Mattresses

Upholstered furniture

Soft toys

Curtains

#### LONG-TERM EFFICACY

With innovative microcapsulation technology (Slow Release™ Technology):

- **Long-term protection** against house dust mites – **5 months** after a single application
- **Controlled release** of the components provides increased safety standards – **proven safety**

#### HIGH EFFICIENCY

Packaging of 400 ml is enough to spray a surface of approximately **40m²**.

10 mattresses

#### EASY TO USE

Evenly covers large surfaces  
Odorless and stain free formula
